

**IIT Madras
Zanzibar**

Chemical Process Engineering at IIT Madras – Zanzibar

A Curtain Raiser

Day and Date: Tuesday 9 June 2026; 10 am – 5 pm.

Venue: IIT Madras-Zanzibar Bweleo campus

This one-day event is to introduce and discuss the new BS program in Chemical Process Engineering, which has been launched at IIT Madras-Zanzibar in October 2025. Through this event, we invite you to become stakeholders in this exciting venture of creating a modern, technologically equipped, future-ready, socially aware workforce for this part of the world. We invite you to partake in the development and evolution of the program through offering internships, project ideas, scholarships, guest lectures and multiple other ways.

About IIT Madras-Zanzibar

Indian Institute of Technology (IIT) Madras, an Institute of National Importance set up through an Act of the Indian Parliament in 1959, is globally recognized for its high-quality education, research and a culture of innovation and entrepreneurship. IIT Madras opened its first overseas campus in Zanzibar, Tanzania, in 2023, with BS and MTech programs in Artificial Intelligence and Data Science. The BS program in Chemical Process Engineering was added in 2025.

About BS (Chemical Process Engineering) at IITMZ

The BS program in Chemical Process Engineering is the second BS stream to be offered by the Institute. The curriculum provides the students with a strong foundation in modern chemical engineering through its first three years, and in the final year, an opportunity to specialize in one of the concentration areas relevant to the region, such as Energy and Water, Blue economy processing, Mineral processing etc, through a co-ordinated set of electives and a capstone project. The program is also designed to synergise with the already established stream of AI and DS through shared electives and projects.

The Curtain-Raiser event: Who should attend

1. Industry majors involved in chemical and pharmaceutical processing, energy, water, mineral processing, food processing, and related areas.
2. Policymakers in the above areas.
3. Educational Institutions running programs in Chemical engineering and related areas, to explore possibilities for co-operation.

The program

The event will begin in the morning with a set of talks that will explain the background and motivation for launching the program at IITMZ, and its architecture. There will also be invited talks from Industry and Academia. The afternoon session will feature a set of breakout sessions on chosen concentration areas, to brainstorm on how the later part of the BS curriculum should be shaped to cater to the needs of the chosen areas.

Registration is free, but mandatory. Please fill and submit the attached google form.

IIT Madras Zanzibar

Curtain Raiser Event

Chemical Process Engineering at IIT Madras – Zanzibar

Join us for an engaging one-day event introducing the newly launched BS Program.

Date: Tuesday, 9 June 2026 | Time: 10:00 AM – 5:00 PM | Venue: IIT Madras Zanzibar Campus

The event will bring together:

- Industry leaders
- Policymakers
- Government Departments
- Academic institutions
- Entrepreneurs & innovators

Explore opportunities for:

- Internships
- Industry collaboration
- Guest lectures
- Research partnerships
- Scholarships & projects

Special focus areas include:

- Special focus areas include:
- Energy & Water
- Blue Economy Processing
- Mineral Processing
- Sustainable Chemical Engineering

Be part of shaping a future-ready workforce for Africa and beyond.

Registration is FREE but **mandatory** Register here: forms.gle/R8ayAsbTJs1euXQg8
